

## REPUBLICAN PRINCIPLES

Individual ability, dignity, freedom & responsibility are basic to good government.

The free enterprise system and the encouragement of individual initiative & incentive are musts for a strong economy.

Government exists to protect the freedom of each individual, not to restrict it.

Government should get involved only in those things which the people cannot do, or cannot do so well for themselves.

Both government & society should assist those who cannot provide for themselves and should help them become self-supporting, productive citizens with pride in their independence.

Equal rights, equal justice & equal opportunity belong to all, regardless of race, creed, color, national origin, or sex.

The preservation of our nation and the security of our citizens depend on every citizen's respect for the Constitution, the laws, and the courts.

Government must maintain sound money and responsible economy. The rights of life and liberty are meaningless if citizens are deprived of their property through excessive taxation, inflation, and government waste.

World peace and friendship will continue through strength.
